Serial No. 49

BRIEF ABSTRACT OF LETTER

Submits for sanction a copy of the resolution of the Meml Council recommending the lease to the Bangalore Woollen, Cotton and Silk Mills Co Ltd of a plot of land measuring 150' x 90' in the tank bed of the Hydrabad tank for the construction of Sewerage Tanks and Filtration tanks solely at their own expense for arresting the contamination of Hydrabad tank arising from the entry of sewage from drains on its eastern side. ~~NOTES AND ORDERS~~ The proposed lease is said to be a permanent one and sanction of Govt is sought for under

Serial  
No

Letter No 42 (2) of 12/10/23. Subject: Submission for  
revenue department in proposal of the Local Council to  
be purchased.

2 It is not clear whether the land proposed to  
be leased out is Municipal property and whether the  
right of the Mills to use the tank water has been -  
acknowledged. The Revenue Branch and the Revenue  
Commissioner may be consulted in the matter.

23/11/23

3 As regards the ownership of the land, the De-  
puty Commissioner may perhaps be ascertained instead  
of the Revenue Commissioner. The question as to the  
right of the Company to the tank or use of water in  
the tank does not immediately arise. But in view -  
of the fact that such a question was pending considera-  
tion in the Revenue Branch some time ago, that -  
Branch may be consulted as to how it has been dis-  
posed of. The tank is known as Agraharam Tank and -  
it is also stated that the Company proposes construct-  
ing sedimentation tank and filter bed to the Agraha-  
ram tank to keep the water pure and it is only pro-  
posed to lease out the land required on payment of a  
rent. This may not go to create any new right to -  
the tank or the water in the tank which the Company -  
does not possess. At the same time, it might per-  
haps be safe to impose a condition that permission to

Serial  
No.

to construct the sedimentation tank will not give -  
them any new right to the Agraharam Tank

4 The Director and the S. J. P. C.

No. 168 of 23-24

OFFICE OF THE CITY MUNICIPAL COUNCIL,

Bangalore City, Dated, 2nd APRIL 1924.

From

M G KRISHNASAMI RAO, Esq, ( 4 APR 27)

MUNICIPAL COMMISSIONER, MUNICIPAL COMMISSIONER

BANGALORE CITY

To

B. Nagappa, Esq, Bar-at-Law, July 2 - 23 49

Secretary to the Government of

His Highness the Maharaja of Mysore,

Local and Legislative Departments,

B A N G A L O R E.

SIR,

I have the honor to state that the authorities of the Bangalore Woollen, Cotton and Silk Mills Co, Ltd, propose to install sedimentation tanks and Filter Beds, solely at their own expense, to arrest all the solids from and purify the sewage flowing from Aralepeth Road before letting it into Agrahara Tank. The purification of this large quantity of sewage is very desirable and is a work that should be undertaken by the Municipality sooner or later. The Council ---- taking advantage of this proposal made by the Company considered the question at its meeting held on the 4th February 1924. That the Company wants for installation purposes is a plot of ground measuring 90' x 150' between the border of the ---- Agrahara Tank and Kemmangudi Road. The Council has no objection to lease it out to the Company on a monthly rental of one rupee, subject to certain conditions. A copy of the resolution of the Council is submitted herewith for the perusal and orders of Government, as the proposal involves a permanent ----

large

lease of the land in question. A plan of the works proposed to be executed by the Company is herein enclosed for information and kind return when done with.

I have the honor to be,

Sir,

Your most obedient servant,

Municipal Commissioner.

Forwarded with compliments.

  
President,

City Municipal Council,

Bangalore.

Sir,

With reference to your letter No L 1432 dated the 19th August 1924, in the matter of the lease of a plot of ground measuring 90' x 150' in the tank bed between the border of the Agrahar tank and Kemmannagundi Road to the Bangalore Woollen, Cotton and Silk Mills Co., Ltd., I have the honor to state that I inspected the locality in company with the Health Officer on the 25th September 1924, but as the question of the improvement of the underground sewage pipe line in Arlepet was involved in the consideration of the matter it was thought desirable to request the Chief Engineer also to join in the inspection. Accordingly a joint inspection by the Chief Engineer, the Health Officer and myself was made today.

2 It was observed that the sullage from the Man-hole opposite the Kengeri Gate Police Station over-flows into the main which leads into the Kemmannagundi tank. The Chief Engineer has kindly promised to arrange for the necessary improvement of the pipe-line being taken on hand as early as possible.

3 There can be no objection to permit the Woollen and

and Cotton Mills Co , to instal a tank on the site <sup>Q</sup> selected by them They should be required to have a Reservoir on the opposite (East) side of the road, where- from the pipe line may be connected to the sedimentation tank The sedimentation tank may be of the type now in use at Chamarajpet, so that a clear effluent may be obtained It should be covered

4 A genuine septic tank is not at all needed seeing that the sewage to be dealt with consists mainly of domestic liquid refuse &c , and is free from the admixture of solids and night-soil The aim is only to allow the gritty matter to settle down and this can be achieved by the installation of a simple covered sedimentation tank

I have the honor to be,

Sir,

Your most obedient servant,
